AUTOMATIC

WATER LEVEL CONTROLLERS

Smart Control. Reliable Water.
Every Time.

- Smart Protection
- Dry Run Protection
- Automatic Operation
- Energy Efficient

GENERAL FUNCTIONS

- Switches off the water pump when the over head tank is full or when the sump is empty.
- Switches on the water pump when the overhead tank is low and sufficient water is available in the sump.
- Automatically restarts when the supply voltage returns to the normal operating range.
- Switches off the water pump during dry-run or overload conditions.
- Advanced microcontroller-based digital single-phase pump controller.
- Current-sensing-based dry-run and overload protection.
- User-friendly LED and LCD display.
- Adjustable voltage and current settings.

DOMESTIC RANGE

Model →	WATER LEVEL CONTROLLER					
	AWLC-10	AWLC-10-7S	AWLCS-10-7S	AWLC-30-7S	AWLC-31-7S	AWLC-30 LCD GSM
